

Junior Infants:

Literacy-

Just Phonics p.87+88; Continue with dictation of words from word lists and constant revision of sounds and tricky words.

Rainbow p.56+57 Reader: Fun at the Park- Story 'Emma's Kite'- can access online at <http://my.cjfallon.ie>

Maths-

Home School links 17 Money

Homework book all pages up to and including p.37

SESE- Our Explore with me theme this month is **Space**. In geography, we are going to be learning about the sun, the moon and the stars. We are also exploring the differences between day and night. In history, we are going to be listening to a story about Neil Armstrong- he was the first man to walk on the moon! In science, we can blast off to outer space (away from COVID19) on our own personal rockets that children can make from junk art materials (recyclable items at home)

Geography p.49

History p.50

Science p.51

PE

Joe Wicks/ Daily Mile/ Any exercise you like outside in the lovely weather

Aistear:

Exploratory play- make 'moon sand' by combining approx. one part baby oil to four parts flour. Your child can shape and mould the moon sand using their hands, buckets, playdough cutters, scoops.

Creative play- Design and make a kite. Provide them with a range of materials. Allow them to go outside and test their kite.

Socio-dramatic play- A tea party.

Constructive play- Build a rocket. Provide your child with boxes and other recycled materials to make the **rocket**.

STEM Challenge: Build your name in 3D. (see example below)

Senior Infants:

Literacy-

Jolly Phonic Pupil book 3: p.29-30 Words and Sentences, Comprehension (see lesson plans below)

Rainbow p.62-63

Maths-

Mental maths p.58-59; 86
