

All Classes Work Plan for week; 1st June – 5th June & Support Pages

Reminder: The recommended time to be spent daily on activities for 4th to 6th class students is 2-2.5 hours. If children struggle with any activity and go over the 2-2.5 hours, please do not worry about completing them all. If an activity is causing any stress to children and/or parents, please message me on Dojo.

If you feel that the assigned work is too much for your child and is causing you or your child stress, then differentiate for your child and select some pieces of work from the list each day, that you would like your child to complete.

New: *No Work Activities Monday as it is a Bank Holiday.*

New: *As we are approaching the end of the School Term; the work load has been reduced to 4 items per day, with the option of completing Creative Work on Wednesdays. I would encourage the kids to complete some P.E Activities out in the sunshine, listening to music and creating some Art work of their own interest, there will no longer be compulsory P.E or Art activities.*

New: *I have included an additional 3 Guided Meditations as part of the kids work this week. These Meditations are now optional and not compulsory. The kids can complete them at night before bed to help them sleep either.*

Finally, please scroll down to see all support documents attached.

Walk the Length of Ireland with your Class & Teacher.

We are going to try and walk the full length of Ireland **together**, which is approximately 486km. I want you all to record your physical exercise each day, you can track your kilometres on your fitbit, or download the free app MapMyWalk or MapMyRun to a phone and bring your phone on your walk/cycle as they record your distance covered. Simply fill in your km on the chart here, and send me a photo of your chart every Friday. I will add up the km's everyone has completed, with my own and see how long it takes us to walk the length of Ireland! If it is raining some days, or you can't get out for a walk/cycle/jog with your family don't worry! 😊

Busy At Maths Tutorial Links (I will also share these on Padlet for the kids to click into on their own devices, they must watch tutorial first and then complete activities independently)

As this is new learning, I understand this may be challenging for both parents and children. If kids are finding anything difficult please do not stress, send me a message on Dojo. CJ Fallon have parent home support pages also, and the teacher's manual is available to parents with tips on 'how to' teach difficult concepts.
